

We ask all individuals using our Grooming Services to Read and Sign our Grooming Waiver. Some / All may apply to your dog.

**GROOMING TRANSFER AUTHORIZATION**

I authorize Haven the Dog Spot to walk/escort my dog(s) for grooming or bathing to our new grooming facility, Haven the Dog Spa, located in the SAME shopping center Suite 132.

I hereby waive and release Haven the Dog Spot, its employees, owners, independent contractors and agents from any injury or damage occurring during these walks, resulting from the action of my dog(s), other dog(s), other people or the environment.

**MATTING**

Dogs with severely matted coats require extra attention. Haven the Dog Spot will not cause serious or undue stress to a pet by de-matting. Mats can be difficult to remove and may require the pet to be shaved. Removing a heavily matted coat can cause nicks, cuts or abrasions. Heavy matting can also trap moisture and urine near the pet’s skin, allowing mold, fungus, or bacteria to grow and /or revealing skin irritations that existed prior to the grooming process. After-effects of mat removal can include itchiness, redness, self-inflicted irritations or abrasions, and failure of hair to regrow. In some cases, pets may also exhibit brief behavioral changes.

I hereby release Haven the Dog Spot from any liability associated with any and all injuries or medical problems that may be uncovered and/or occur during the stripping and de-matting process. Should my pet need veterinarian care after or during the process of de-matting, I agree to pay any and all veterinarian fees.

**EAR PLUCKING**

This process provides ventilation to the ear canal and is recommended by the majority of veterinarians, however, it may reveal deeper problems including infection and possibly irritation.

I accept these possible consequences and hold Haven the Dog Spot harmless.

**ANAL GLANDS**

Anal gland expression is not necessary for all dogs, but if the pet is licking or scooting on its bottom excessively, removal of anal gland material may be indicated. Haven uses external pressure ONLY. Even with that precaution, anal glands may be inflamed or infected and the results of the expression may be sub par.

I accept these possible consequences and hold Haven the Dog Spot harmless.
